Intuitive

User interface fully operator-oriented

- Easy
- Dedicated
- Full Touch Screen Technology

The intuitive touch screen provides the user with quick and easy access to all controls. Add impressive image quality and a compact design to make MyLabOne the most dedicated and focused solution for Point-of-Care ultrasound.

- Large ultrasound image
- Preset driven
- Focus touch technology

Fast

At Point-of-Care
whenever you need it

Thanks to the compact design and integrated long-life battery, MyLabOne can easily and quickly be taken wherever ultrasound is needed from departments to bedside.

- Compact and Mobile
- Long-Life Integrated Battery
- Wireless Connectivity

Optimal Workflow

The wireless connectivity standard integrated in MyLabOne offers the unique possibility to archive exams and receive patients' information wirelessly between procedures; meaning minimization of time required for exam and patients' data management.

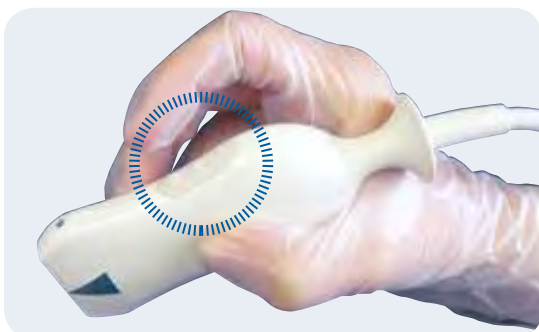

Multi-Probe Connector

A very nice and elegant three-transducer module allowing to connect up to three transducers to the MyLabOne system and select the active transducer via software.

Built-in Transducer Controls

The unique controls integrated into MyLabOne transducers allow remote function control, especially useful for quick actions and in sterile conditions.

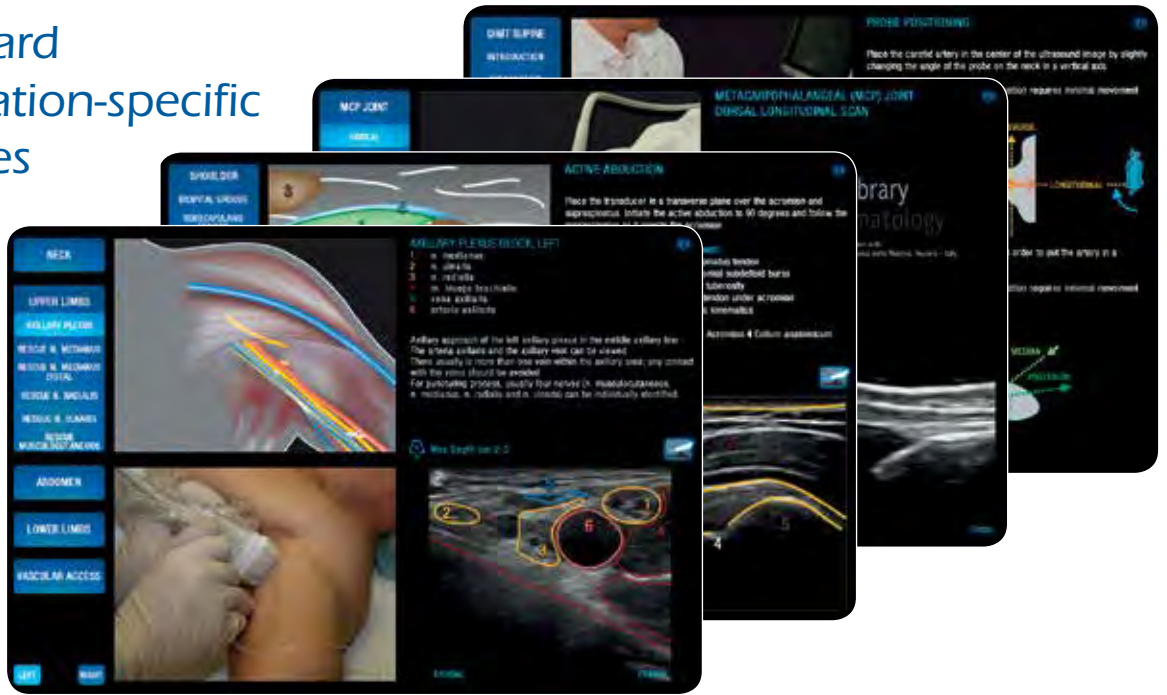

Easy to Clean

At the end of procedures, MyLabOne can be easily and quickly cleaned, thanks to its flat front panel and smooth profile.

Education

MyLibrary

On-board
Application-specific
Libraries

MyLibrary is an innovative application dedicated tool integrated in the MyLabOne for users' reference, which includes anatomical atlas and "How to do" reference images.

Education is a very sensitive and important subject, especially in those applications where ultrasound has been more recently acquired as technology to support the procedures.

Esaoe understands this necessity and is convinced that educational support has to be easy and fast for any user.

To satisfy the operator's needs the MyLibrary has been integrated in the MyLabOne, so users can instantly and easily have access to a fast, thorough and application specific educational environment.

Education

Dedicated to Point-of-Care without compromise

Dedication to Point-of-Care means focus and attention to specific applications, inspiring technological developments that bring the most effective solutions.

MyLabOne combines software with a user interface and features fully designed around the application plus a complete set of accessories making MyLabOne perfect for any clinical environment and workflow.

- Wide High Quality Image
- Efficiency Oriented Workflow
- Intelligent Interface
- On-board Libraries
- Easy Connectivity and Data sharing
- Dedicated Presets and System Configurations
